Black Splotches All Over Face-Produced Severe Itching - Year's Treatment by Physicians Did No Good and Became Despondent-Affected Parts Now Clear as Ever THE - Alabama Lady's

CURE BY THE CUTICURA REMEDIES

"About four years ago I was afficited with black splotches all over my faco and a few covering my body, which produced a severe itching irritation, and which caused me a great deal of annoyance ancisuffering, to such an extent that I was forced to call in two of the leading physicians of my town. After a thorough examination of the dreaded complaint they announced it to be skin extent in the worst form. They treated me for the same for the length of one year, but the treatment did me no good.

"Finally I became despondent and decided to discontinue their services. Shortly after wards, my husband in reading a copy of a weekly New York paper saw an advertisement of the Cuticura Remedies. He purchased the entire outfit, and after using the contents of the first bottle of Cuticura Resolvent in connection with the Cuticura Scap and Olatment, the breaking out entirely stopped. I continued the use of the Cuticura Remedies for six months, and after that every splotch was entirely gone and the affected parts were left as clear as ever. I have not felt a symptom of the eczema since, which was three years ago.

"The Cuticura Remedies not only

tem of the eczema since, which was three years ago.

"The Cuticura Remedies not only cured me of that dreadful disease, eczema, but other complicated troubles as well; and I have been the means of others being cured of the same disease by the Concura Remedies, and I don't hesitate in saying that the Resolvent is the best blood medicine that the world has ever known." Lizzie E. Sleige, 500 Jones Ave.

Newspaper Tributes.

Henry Clay Payne, a concern in New York gathered from the papers published throughout the United States 4,685 newspaper stories of the life and career of the deceased.

These items were carefully mounted on Irish linen leaves and bound in 6 volumes, 400 pages to the book. A cover of genuine seal was appropriately lettered in gold and the entire material, representing the work of many people for several months, has just been delivered

to Mrs. Payne at Milwaukee. Mr. Burrelle, who makes a specialty of this unique method of preserving family history, also compiled four volumes containing the letters, telegrams and cards of condolence received by the family, all constituting a family heirioom that will be handed down to future genera-

tions
this work is one of the several developments of the press clipping industry and Mr. Burrelie has made a special study of the work he created several

years ago.
